

# **APPENDIX G**

## **BIBLIOGRAPHY**

The following sources are some of the references used in preparing the Social Development Plan. Some of these references are reports of studies or surveys undertaken specifically for the Nam Theun 2 Project, although it is not a complete list of the many and various internal studies undertaken by NTPC and its partners towards the drafting of the SDP. A further listing of some of the internal reports on Consultations is provided in Volume 1 Chapter 4.

Other references are documents not specifically related to the Nam Theun 2 Project, but containing information, data and ideas which have been used in the development of the SDP.
